The Travencore Durbar has made a proposal for reciprocity between different Governments in the matter of admission into hospitals and maintenance therein of mental patients belonging to another State. The arrangement outlined is that the Government or Province or State admitting a Travancore subject as an inmate of a Government mental hospital should at once intimate the fact to the Travencore Durbar and ascertain whether the lunatic should be sent over to Travencore or retained in the Hospital at the expense of Travencore Government. The Travencore Government agrees to take similar action in the case of non-Travencore lunatics admitted into the hospitals of that State. It is also proposed that the cost of transport of patients and attendants will have to be borne by the State to which the patient belongs. The Senior Surgeon agrees with the arrangement proposed and suggests that the same may be adopted with all Governments in supercession of the existing arrangements between our Government and that of Madras and Bombay by which each Government has agreed not to claim from the other any charges incurred in the maintenance of lunatics who are subjects of such other governments. On a careful consideration I fully concur with the Senior Surgeon. The arrangement now existing between the Madras and Bombay Governments on the one hand and the Mysore Government on the other,

throws a heavier burden on Mysore than on the Governments of Bombay or Madras.

9 The law as in force in Mysore does not in any way make it difficult for the Mysore Government agreeing to the proposal of Travencore. The only point requiring examination is whether the Mysore Mental Hospital can admit a lunatic sent from Travencore without a reception order from a Mysore Magistrate as required by the Lunacy Regulation I of 1916. I think Section 69 of the Regulation covers all such cases. It empowers the officer in charge of the asylum to give effect to any order or warrant for the reception and detention of any lunatic made or issued by any court or authority beyond the limits of Mysore, provided that such courts are notified by the Government in the official Gazette from time to time. Section 70 enables the Government to make rules for the receiption of lunatics received from outside Mysore. Consequently no legal difficulty arises in the working of the arrangement proposed by the Travencore Government and I am of opinion that steps should be taken early to modify the existing arrangements with the Madras and Bombay Governments also.

NOTE—Contn. sheet.

Final Note by the Third Member of Council.

Subject:— Reciprocity arrangement with the Governments of Travancore and Madras in the matter of admission into Hospitals and maintenance therein of Mental patients belonging to them.

In August 1928, the Travancore Government made a proposal, thro the Resident, for reciprocity between different Governments in the matter of admission into Hospitals and maintenance therein of Mental Patients. The arrangement outlined is that the Government of the Provinces or State admitting a Travancore subject as an inmate of a Government Mental Hospital, should at once intimate the fact to the Travancor Durbar and ascertain whether the lunatic should be sent over to Travancore or retained in the Hospital at the expense of the Travancore Govt. The Travancore Government agreed to take similar action in the case of non-Travancore lunatics admitted into the Hospitals of that State. It was also proposed that the cost of transport of patients and attendants would have to be borne by the State to which the patients belonged. The Senior Surgeon who was consulted in the matter has agreed to the proposed arrangement and suggested that the same reciprocity may be arranged with the Madras and Bombay Governments in lieu of the existing arrangement with them.

Under the existing arrangement with the Governments of Bombay and Madras, each Government has agreed not to claim from the other any charge incurred in respect of the maintenance of lunatics who are subjects of the other Governments. The experience so far gained of the working of this arrangement, as far as Mysore is concerned, has shown that the number of lunatics admitted into the State Asylum from the tw Presidencies has been steadily increasing from year to year while the number of Mysore lunatics maintained in the Hospitals in those Presidencies is negligible. The arrangement has thus been working to our decided disadvantage. The Residency was accordingly requested on the 11th July 1929 to move the Governments of Bombay and Madras to change the existing practice and adopt the one proposed by the Travancore - -
